PENDING CONSIDERATION

18/00776/FUL

Natures Way Foods Unit 4 Chichester Food Park Bognor Road PO20 1NW

Extension of existing horticultural packhouse

PENDING CONSIDERATION - the planning officer has asked for the parish council's comments on the updated landscaping strategy the officer makes the following points

The main features and differences are:

1. Planting rather than bunding. Previous developments have shown that bunding can be a harsh feature which takes up land and compromises the amount of good planting that can take place. Over time, the planting will create a more natural and taller feature to soften and filter views
2. Informal clusters of plants, including standard (3-3.5m) and heavy standard (3.5-4.25m) trees, understorey planting and wildflower seeding are proposed between the development and the bridleway, on the west side of the bridleway. The Grain Store project has already committed to a native field hedge on the eastern side of the bridleway (I'll chase this as it's not been planted yet). Smaller trees establish better and grow taller than the larger ones. Most of the existing planting within the Food Park were hedge plants or small trees originally and some are now taller than the HGVs; the ones planted to the west of the original Nature's Way building by the bridleway are taller and effectively filter views of this large packhouse - the aim is for something similar to be created here
3. The planting areas focus on the north east and central part of the bridleway, to ease the viewer into the Food Park rather than a sudden change of scene.
4. The clusters allow some views into the site to avoid creating a tunnel effect on the bridleway
5. Additional planting is proposed to the east of the new access road, around the northern bridleway spur and around the reservoir.
6. Easements for services have been taken into account.

Comments to be submitted by 10am on 6<sup>th</sup> December.
